

La maltraitance chez les aînés

F-1

TRAINING

BRIEF DESCRIPTION OF THE TOOL:

The objectives of this training are to:

- Increase participants' knowledge of the reality of senior abuse
- Enhance the ability to act preventively with people with sensory limitations

Here are the topics covered during this training:

- Definitions of abuse
According to Stones' three subcategories of definitions: connotative, structural and descriptive
- The health risks
- Humiliating behaviors
- Abuse in institutions
- Financial or material abuse
