

Les mauvais traitements envers les aînés : pourquoi dépister?

F-3

TRAINING

BRIEF DESCRIPTION OF THE TOOL:

OBJECTIVE

Elder abuse takes various forms. This training will enable practitioners to acquire the knowledge required to detect senior abuse in their professional context.

CONTENTS

As part of a general presentation followed by interactive activities, the training will focus on defining different types of abuse, recognizing those that could put the elderly in an abusive situation. It will also review various indicators that can reveal the presence of abuse. The available resources are listed and participants have the opportunity to exercise their screening skills with a real case. An intercultural approach to elder abuse is incorporated into the training (optional). The training includes a multidisciplinary and multisectoral screening and intervention exercise.

RESULTS

Participants will be able to:

- Recognize the different kinds of senior abuse
- Recognize the signs of potential abuse
- Recognize risk factors for abuse
- Determine when to intervene
